Petitioner/applicant is cautioned to avoid submitting personal information in documents filed in a patent application that may contribute to identity theft. Personal information such as social security numbers, bank account numbers, or credit card numbers (other than a check or credit card authorization form PTO-2038 submitted for payment purposes) is never required by the USPTO to support a petition or an application. If this type of personal information is included in documents submitted to the USPTO, petitioners/applicants should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. Petition Under 37 CFR 1.137 to Revive Unintentionally Abandoned Application

Sir:

Applicant hereby petitions to revive the above-captioned unintentionally abandoned application. Applicant submits herewith (1) the required petition fee as set forth in § 1.17(m), (2) the required reply in the form of a continuing application filing, and (3) the following statement:

The entire delay in filing the required reply from the due date from the reply until the filing of a grantable petition pursuant to this paragraph was unintentional.

Background

On March 3, 2006, Applicant filed a continuation (Ser. No. 11/367,185) of the above-captioned application, which was pending at the time, and subsequently allowed the above-captioned application to become abandoned. The continuation was filed with an incorrect specification, which, as consequence, referred to the wrong drawings. The Patent Office, discovering that the specification did not match the drawings, and unaware that it was the specification, not the drawings, that was incorrect, issued a Notice of Omitted Items requesting that FIGS. 4-10 of the drawings be submitted. Applicant responded by sending the correct

specification and explaining the error. The response by Applicant was treated as a petition under 37 CFR 1.182, and was dismissed. The reason for the dismissal was the failure by Applicant to submit a supplemental oath or declaration along with the correctly-filed specification, as the Notice of Omitted Items had suggested. Applicant did not file such a supplemental oath or declaration because, according to the Notice of Omitted Items, the filing date of the continuation would have become the filing date of the supplemental oath or declaration, and Applicant would have lost the continuity from the above-captioned application, which by then had been abandoned.

Accordingly, Applicant hereby petitions under 37 CFR 1.137 to revive the above-captioned application so that a new continuation, with unbroken continuity from the above-captioned application, can be pursued, as was originally intended.

Please charge any additional required fees or credit any overpayment not otherwise credited, to our deposit account no. 50-1698.

Respectfully submitted,
THELEN REID & PRIEST, L.L.P.
